TESTIMONIAL

🇯🇵 “BE PROUD OF YOUR DECISION!!” / KANA

The small capacity made me interact with many nationalities. Each teacher and student are close, so I could feel friendship everywhere.)

There was sometimes blackout but I did appreciate fast Wi-fi speed, less insects and location, near cafes. Best weather lets me study more and more.

To those who are afraid of stepping forward because of the job and other concerns, only few months experience makes our lives fulfilled for sure.

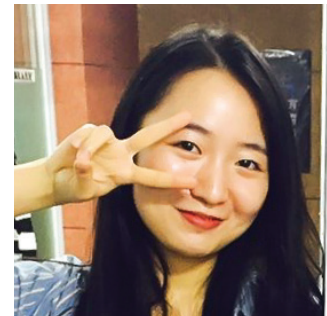

🇻🇳 “NO WORRIES TO TAKE A STEP” / BILA

Before I came, I was worried about many things such as: learning schedule everyday, accomodation, food, friends... what I would achieve when I finished the term...

After I came, I had good feeling, I like group class, I could improve my speaking, friends from other countries are so kind, I had many unforgettable memories with them.

I think I had a right decision to come Wales in 3 months.

🇰🇷 “MORE THAN EXPECTATION” / OLIVIA

This school operates with not that many students compared with the other schools. In the other schools case, they have more than 200 students but in WALES, they have about 70. Teachers can concentrate on their students respectively and be interested in their students. In addition, students can feel strong bond or affection with teachers.

In this school, a student could mix with variety of nationalities. In here, I could get along with Japanese, Taiwanese, Filipino and Korean. Of course, there are more Koreans rather than the other nationalities, but still there are many foreigners. I was able to learn their cultures which are totally different with Korean's. I could experience Japan, Taiwan and the other countries in Philippines. Up until now, I think that the biggest thing I got in WALES is 'friends'.

🇹🇼 “DON'T MISS WALES!” / MEI

There are two main reasons why the agent recommended me WALES and I chose to learn English here: “Abundant Living Requirements” and “Warm Atmosphere like Family”. For these advantages, I'll give the people searching English academy a word of advice "Don't miss WALES!".

After 3 weeks ESL program, I studied IELTS course for 7 weeks. During that period, I remarkably improved English ability in four parts and raised IELTS band score from 4.5 to 6.5. Anyway, without teachers' help and companion, I can not reach my goal and own extremely wonderful memories.

🇵🇭 “COMFY” / PABLO

The schedule was very appealing for me: Six hours of private class and two hours in a group, daily for one month. It was demanding -this is Asia, guys, don't forget it! My goal was improving my English before travelling around Asia, but I got something better: I started to traveling every day, in every class, talking to my teachers and my classmates I was meeting new cultures, new food, new advices, new visions of life from the Philippines, Japan, Korea, Vietnam, Taiwan, China, Arabia, and so on.

Baguio is a special place. I thought it was small town hidden in the mountains of the Philippines and you can get relax there-, but the city is vibrant in the day, have plenty options of food, there are many places for going for a drink at night. Indeed, I miss Baguio.
